Men's Prime Executive Checkup

Preventive Health Screening

Leading Cancer Types Among Filipino Men (2022)

In the Philippines, lung, colorectal, and prostate cancers have emerged as the three most common types affecting many Filipino men. Particularly, prostate cancer poses a significant threat as it only targets males.

International Agency for Research on Cancer (WHO), 2022

Beyond cancer detection, this health package also helps identify and address the following conditions:

Anemia & Leukemia

Diabetes

Cardiovascular Diseases

Liver Disease
(Fatty Liver, Cirrhosis, Cysts)

Benign Prostatic Hyperplasia

As of April, 2026
Version 2.2

Health Tests Included

To help you prepare and set your expectations, here's a step-by-step guide to the examinations included in the Men's Prime Executive Checkup.

01 Check-in

Receive your Patient Gown & Hotel Slippers upon check-in.

02 Health Checkup Orientation

Our medical coordinator will provide a brief run-through of your procedures and essential tests.

03 Specimen Collection

Collect and submit urinalysis and stool samples using the provided patient invitation.

04 Physical Exam

Know your height, weight, body mass index, waist circumference, and blood pressure.

05 Blood Exam

CBC, FBS/HbA1c, Lipid Profile, Liver Function 1, Liver Function 2, Kidney Function, Uric Acid, Electrolyte, Infection, Tumor Markers (CEA, PSA).

Our blood tests provide a broader look at various functions of the body. These exams also include tumor markers that can detect cancers specific to men.

06 Eyesight

07 Tonometry

08 Fundus

09 Hearing

10 ECG

11 Chest X-ray
